DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: After reviewing the remarks and the amendments made by the Applicant, the Examiner finds the remarks persuasive in view of the new limitations. The most pertinent prior art is the previously cited Guoxing (0-7803-4859-1/98 IEEE "A modified Current Mode Hamming Neural Network for Totally Unconstrained Handwritten Numeral Recognition"). Guoxing teaches a handwritten numeral classifier using fuzzy logic and cellular neural networking, which generates membership functions as well as synthesizing those memberships using a k-WTA circuit. What Guoxing does not disclose however is the use of a 24x24 pixel extractor comprised of circuit cells with 4 cascade current mirrors connected to the output of the cell circuits, as well as 4 transmission gates controlling the input of the extraction unit, wherein the input signal of the extraction unit is connected to the input of the transmission gates through a transistor. It is for this reason that the Examiner finds the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonathan C. Schaffer whose telephone number is (571)272-0603. The examiner can normally be reached on 7:30am - 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Mancuso can be reached on (571)272-7695. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
